Emil Mariya *Benny*

BUSINESS DEVELOPMENT & STRUCTURING SPECIALIST

AI Integration · Data Strategy · HR · Executive Assistant to the MD

I Professional Profile

An Electronics & Communication engineer who chose business — and kept the engineer's habit of taking things apart to see why they don't work. I work between the boardroom and the build: hearing what leadership needs, finding the bottleneck nobody has named, and closing the gap myself — with **AI**, a cleaner **process**, the right **hire** or a sharper **campaign**. Currently the strategic right hand to the Managing Director of **A Daga Steel and Industrial Corporation**.

AI builder
Apps, dashboards, content and campaigns built with AI agents

Data → decisions
Numbers that matter, in front of the person who decides

People & process
HR, hiring and the structure that lets a team scale

II Experience

CURRENT

Business Development & Structuring Specialist

JAN 2026 — PRESENT

A Daga Steel and Industrial Corporation · AI Integration, Data Strategy | EA to MD · 11 mos

A senior strategic partner to the Managing Director, operating at the intersection of AI, data, and business growth. This role goes far beyond traditional executive support, driving transformation across technology, operations, and strategy at the highest level.

01 AI INTEGRATION & INNOVATION
Deploying AI tools and automation across business functions to boost efficiency and enable smarter decisions. Leading an AI-first digital transformation agenda organisation-wide.

02 DATA STRATEGY & MANAGEMENT
Building and managing data infrastructure that turns raw information into leadership-level insights. Developing scalable systems to support long-term business intelligence.

03 EXECUTIVE & ORGANISATIONAL LEADERSHIP
Partnering with the MD on strategic planning, company structuring, and key decisions. Acting as a trusted proxy across internal operations and external engagements.

04 TECHNOLOGY & DIGITAL
Owning website management, application development, and the full digital ecosystem.

05 SALES, MARKETING & GROWTH
Executing sales outreach strategies and overseeing digital marketing operations. Aligning growth initiatives with the MD's business vision.

06 TALENT ACQUISITION & HR
Leading end-to-end hiring aligned with company strategy.

EMB

EMIL MARIYA BENNY

EDUCATION

B.Tech — Electronics and Communication
College of Engineering, Munnar

II Experience *continued*

Executive Assistant to the Founder
OCT 2024 — OCT 2025

Conor Australia · Executive Customer Support Specialist · Full-time · Australia

Worked closely with the founder to support strategic, operational and day-to-day business functions — beyond traditional administration, with active participation in decision-making, cross-functional coordination and business growth initiatives.

- **Founder support & calendar management:** managed the founder's schedule, prioritised meetings and supported key founder-level responsibilities.
- **Cross-department coordination:** oversaw and coordinated multiple departments for alignment with business goals and timely execution of tasks.
- **Website management:** handled website updates and performance monitoring, ensuring a smooth user experience.
- **Content & SEO management:** planned, created and optimised content while implementing SEO strategies to improve online visibility and engagement.
- **Digital marketing:** managed and executed campaigns across platforms to drive brand awareness and lead generation.
- **Product management:** assisted in product planning, development coordination and execution for timely delivery and market relevance.
- **Hiring & talent acquisition:** supported recruitment, including sourcing, screening and onboarding candidates.
- **Company structuring:** contributed to building internal processes, improving workflows and supporting organisational growth.

BEYOND THE CV

What you get when you *hire me*

IV Why Hire Me

Finds the real problem
Asks the uncomfortable "why" until the cause shows up — so the fix lands first time.

Turns AI into results
From "we should try AI" to tools a team uses every day, without waiting for a dev team.

Makes data decision-ready
Replaces gut feel with a clear view of the numbers that matter.

Grows the pipeline
Connects outreach, content and campaigns into one engine that starts conversations.

Builds teams that hold
Hires for the gap, onboards properly, and sets up processes that survive growth.

Trusted at the top
A leader's right hand — discreet, organised, able to act on their behalf.

V AI Lab — I Build With It

```
> turn this business idea into a working demo app
```

Business apps & demos
Research a need and build a working web application with AI agents, so leaders can test it instead of reading about it.

```
> show me the numbers live, not in a monthly report
```

Dashboards & data tools
Live views and internal tools that keep data current and in the right hands.

```
> make our product range ready for social media
```

AI content studio
Imagery, catalogues, posts and short videos produced with AI and published on schedule.

```
> research this market and draft the first outreach
```

Research & outreach
Briefings, proposals and outreach drafted with AI, then tracked so nothing slips.

```
> plan the campaign, set the audience, watch the spend
```

AI-assisted ad campaigns
Audiences, budgets and structure set up and monitored with AI connected to the ad platform.

VI How I Work

01 Find
Locate the real bottleneck in the workflow and the data.

02 Frame
Structure the problem and the options with leadership.

03 Build
Ship the fix — an AI tool, a process, a campaign or a hire.

04 Measure
Track what changed, refine it, make it repeatable.

Let's work *together.*
